JOURNAL of ANALYTICAL and APPLIED PYROLYSIS

Subject Index

Acetic acid
Study of the bimolecular pyrolysis of acetic acid by the Austin Model 1 semi-empirical method, 169
Alcohol bisulfite lignin
Analytical pyrolysis of alcohol bisulfite lignin, 239
Aliphatic carboxylic acids
Thermogravimetric behavior of black liquors and their organic constituents, 1
Ammonium ferric oxalate hydrate
Physicochemical investigation of the decomposition products of ammonium metal carboxylates: ammonium ferric oxalate hydrate, 157
Analysis
Analysis of aromatic hydrocarbons in pyrolytic oil derived from biomass, 15
Anionic ion-exchange resin
Pyrolysis and incineration of cationic and anionic ion-exchange resins — Identification of volatile degradation compounds, 129
Austin Model 1 method
Study of the bimolecular pyrolysis of acetic acid by the Austin Model 1 semi-empirical method, 169

Betula pubescens
Thermogravimetric behavior of black liquors and their organic constitutients, 1
Betula verrucosa
Thermogravimetric behavior of black liquors and their organic constitutients, 1
Biomarkers
Rapid quantification of biomarkers during kerogen microscale pyrolysis, 227
Biomass
Analysis of aromatic hydrocarbons in pyrolytic oil derived from biomass, 15
The influence of catalyst type on the composition of upgraded biomass pyrolysis oils, 39
Black liquor
Thermogravimetric behavior of black liquors and their organic constituents, 1

Catalysis
Analysis of aromatic hydrocarbons in pyrolytic oil derived from biomass, 15
Catalysts
The influence of catalyst type on the composition of upgraded biomass pyrolysis oils, 39
Cationic ion-exchange resin
Pyrolysis and incineration of cationic and anionic ion-exchange resins — Identification of volatile degradation compounds, 129
Cellulose
A comparative study of the effects of fire retardants on the pyrolysis of cellulose and *Pinus halepensis* pine-needles, 85
Thermogravimetric behavior of black liquors and their organic constituents, 1
Closed system microscale pyrolysis
Rapid quantification of biomarkers during kerogen microscale pyrolysis, 227
Combustion gases
Analysis and toxicity testing of combustion gases. 2. Characterisation of combustion products from halogen-free flame-retardant duroplastic polymers for electronics, 141
Combustion processes
Kinetic analysis of in situ combustion processes with thermogravimetric and differential thermogravimetric analysis and reaction tube experiments, 63
Composition
The influence of catalyst type on the composition of upgraded biomass pyrolysis oils, 39

0165-2370/95/$09.50 © 1995 – Elsevier Science B.V. All rights reserved

Decomposition products
Physicochemical investigation of the decomposition products of ammonium metal carboxylates: ammonium ferric oxalate hydrate, 157
Differential scanning calorimetry
A comparative study of the effects of fire retardants on the pyrolysis of cellulose and *Pinus halepensis* pine-needles, 85
Differential thermal analysis
Physicochemical investigation of the decomposition products of ammonium metal carboxylates: ammonium ferric oxalate hydrate, 157
Differential thermogravimetric analysis
Kinetic analysis of in situ combustion processes with thermogravimetric and differential thermogravimetric analysis and reaction tube experiments, 63
Duroplastic polymers
Analysis and toxicity testing of combustion gases. 2. Characterisation of combustion products from halogen-free flame-retardant duroplastic polymers for electronics, 141

Electronics
Analysis and toxicity testing of combustion gases. 2. Characterisation of combustion products from halogen-free flame-retardant duroplastic polymers for electronics, 141
Extractives
Thermogravimetric behavior of black liquors and their organic constituents, 1

Fire retardants
A comparative study of the effects of fire retardants on the pyrolysis of cellulose and *Pinus halepensis* pine-needles, 85
Fluidized bed reactor
Kinetic study of the flash pyrolysis of municipal solid waste in a fluidized bed reactor at high temperature, 101

Gas chromatography/mass spectrometry
Analysis of aromatic hydrocarbons in pyrolytic oil derived from biomass, 15
Pyrolysis and incineration of cationic and anionic ion-exchange resins — Identification of volatile degradation compounds, 129

Hemicelluloses
Thermogravimetric behavior of black liquors and their organic constituents, 1
Humic acids
Pyrolysis derivatization of humic substances. 2. Pyrolysis of soil humic acids in the presence of tetramethylammonium hydroxide, 75
Hydroxy acid
Thermogravimetric behavior of black liquors and their organic constitutients, 1

Incineration
Pyrolysis and incineration of cationic and anionic ion-exchange resins — Identification of volatile degradation compounds, 129

Japanese cedar (*Cryptomeria japonica* D. Don)
Analytical pyrolysis of alcohol bisulfite lignin, 239

Kerogen
Rapid quantification of biomarkers during kerogen microscale pyrolysis, 227
Ketoxime arenesulfonates
Molecular rearrangements of sulfur compounds. Thermolysis of ketoxime arenesulfonates, 123
Kinetic analysis
Kinetic analysis of in situ combustion processes with thermogravimetric and differential thermogravimetric analysis and reaction tube experiments, 63
Kinetic study
Kinetic study of the flash pyrolysis of municipal solid waste in a fluidized bed reactor at high temperature, 101
Kinetics
Rapid quantification of biomarkers during kerogen microscale pyrolysis, 227
Kraft pulping
Thermogravimetric behavior of black liquors and their organic constitutients, 1

Laser pyrolysis/desorption
Chemical examination of some petroleum source rocks by laser pyrolysis–mass spectrometry and flash pyrolysis–gas chromatograpy/mass spectrometry, 177
Lignin
Thermogravimetric behavior of black liquors and their organic constitutients, 1

Macerals
Chemical examination of some petroleum source rocks by laser pyrolysis–mass spectrometry and flash pyrolysis–gas chromatograpy/mass spectrometry, 177

Mass spectrometry
A comparative study of the effects of fire retardants on the pyrolysis of cellulose and *Pinus halepensis* pine-needles, 85
Chemical examination of some petroleum source rocks by laser pyrolysis–mass spectrometry and flash pyrolysis–gas chromatograpy/mass spectrometry, 177
Molecular rearrangements
Molecular rearrangements of sulfur compounds. Thermolysis of ketoxime arenesulfonates, 123
Municipal solid waste
Kinetic study of the flash pyrolysis of municipal solid waste in a fluidized bed reactor at high temperature, 101

Oil/petroleum generation potential
Chemical examination of some petroleum source rocks by laser pyrolysis–mass spectrometry and flash pyrolysis–gas chromatograpy/mass spectrometry, 177
Oils
The influence of catalyst type on the composition of upgraded biomass pyrolysis oils, 39

Pine needles
A comparative study of the effects of fire retardants on the pyrolysis of cellulose and *Pinus halepensis* pine-needles, 85
Pinus sylvestris
Thermogravimetric behavior of black liquors and their organic constitutients, 1
Polycyclic aromatic hydrocarbons
Analysis of aromatic hydrocarbons in pyrolytic oil derived from biomass, 15
Polyolefins
Pyrolysis field ionizaion mass spectrometry of polyolefins, 203
Pyrolysis–field ionization-mass spectrometry
Pyrolysis field ionizaion mass spectrometry of polyolefins, 203
Pyrolysis–gas chromatography
Analytical pyrolysis of alcohol bisulfite lignin, 239
Pyrolysis–gas chromatography/mass spectrometry
Analytical pyrolysis of alcohol bisulfite lignin, 239

Reaction tube experiments
Kinetic analysis of in situ combustion processes with thermogravimetric and differential thermogravimetric analysis and reaction tube experiments, 63
Retention indices
Analysis of aromatic hydrocarbons in pyrolytic oil derived from biomass, 15

Soda-anthraquinone pulping
Thermogravimetric behavior of black liquors and their organic constitutients, 1
Soil
Pyrolysis derivatization of humic substances. 2. Pyrolysis of soil humic acids in the presence of tetramethylammonium hydroxide, 75

Tetramethylammonium hydroxide
Pyrolysis derivatization of humic substances. 2. Pyrolysis of soil humic acids in the presence of tetramethylammonium hydroxide, 75
Thermal degradation
Pyrolysis and incineration of cationic and anionic ion-exchange resins — Identification of volatile degradation compounds, 129
Thermal desorption
Rapid quantification of biomarkers during kerogen microscale pyrolysis, 227
Thermogravimetric analysis
Kinetic analysis of in situ combustion processes with thermogravimetric and differential thermogravimetric analysis and reaction tube experiments, 63
Thermogravimetry
Thermogravimetric behavior of black liquors and their organic constitutients, 1
Physicochemical investigation of the decomposition products of ammonium metal carboxylates: ammonium ferric oxalate hydrate, 157
